Tufting considerations

Tufted frames include:

Sofa groups: 203 243 284 396; Chairs & Recliners: 512 522 527 540; Cocktail & Storage Ottomans: 894 895 Tufted 2000 Ottomans; S|B Dining Chairs: D102 D104

****** Please warn consumers that PATTERNED FABRICS will NOT line up or match on tufted areas. ******

Any orders for matched fabrics on tufted pieces will require a signature to proceed. We will send you the form to sign once we have your order. Not every fabric is suited for every style. Tufted furniture presents the most difficult challenge for matching patterns. The frames listed above are upholstered using individual pieces of fabric sewn together between each tuft. Because of this, it is impossible to match patterns between each diamond or square. Our Cutting Department makes no effort to match any pattern on the tufted areas of these styles. These pieces look best in solids or textures rather than stripes, plaids, diamonds, florals, etc.

To allow the corners or buttons to sink into the back, square tufts are

actually cut in shapes like a four pointed star before being sewn

together. It is impossible to match a pattern across these seams

=

because of the curves.

A diamond tufted back is made of many pieces sewn together. It is not

practical to match them and the pleats and complex shapes would

= distort any attempts to match.

Any type of fabric pattern will be applied randomly on the tufted areas

of these styles. As the illustration shows, this is not flattering to the

=

pattern or to the piece of furniture. This type of square tufting is the

least forgiving of patterns on tufted styles.

Arm caps & headrests

Overall considerations

Fabric/leather collaging can ONLY be done on frames that are AVAILABLE IN LEATHER. To determine the price of such a piece:

1 Establish whether the Outside Back, Arms, and Base are to be Fabric or Leather.

2 Determine the appropriate "Combination", either "A" or "B", to determine which pricing calculation to use below.

COMBINATION A -- Based on a LEATHER FRAME, where the Outside Back, Outside & Inside Arms, Arm Panel, Inside Flap, and Base are all LEATHER, with Seat Cushions and Inside Back in Fabric

COMBINATION B -- Based on a FABRIC FRAME, where the Outside Back, Outside Arms, Seat Cushions, Inside Flap, and Inside Back are all FABRIC, with Leather Inside Arms, Arm Panel, Base & Baseband.

825 Chair -- Based on a FABRIC FRAME, where either A) The band around the chair is leather, or B) the Outside Back, Outside Arms, and Band are all leather.

3 Price all Nailhead, Fringe, Cord, & Contrast Welt additionally.

4 If pillows are normally included on the FABRIC FRAME, the standard toss pillows IN ANY FABRIC are INCLUDED on all applicable pieces.

C.O.M. - Customer's Own Material
Step 1: Configure Order
Select Style and SKU of furniture or pillows
Identify C.O.M attributes (Fabric supplier will have this information)
Name/Number and Color of fabric
Width of fabric (must be at least 54" for upholstery)
Horizontal Repeat (in inches)
Vertical Repeat (in inches)
Direction - Railroad or Up-the-Roll (AKA Conventional or Regular)
Step 2: Determine Yards Needed
Using the above information, look up the necessary yardage on the Portal’s COM Yardage Estimator (QR Code)
Step 3: Additional Considerations
We do not recommend patterns such as plaids, stripes, or florals, etc. on tufted furniture as the pattern will not be matched across tufted areas on these pieces.
When selecting an Up-The-Roll fabric, note that any parts of the furniture that are wider than 53” will have additional, visible seams.
Example: sofa bases, tops of wedge cushions, and outside backs of longer pieces, etc. This is due to the fact that the width of the fabric is only 54” and cannot be stretched across these wider pieces without seaming.
We highly recommend double checking that your C.O.M. has a backing (acrylic, knit, nonwoven, etc.). This will ensure stability and promote durability. The fabric supplier will have more information.
WE WILL NOT ACCEPT VELVETS, VINYLS, LEATHERS, OR POLYURETHANES FOR C.O.M.
WE WILL NOT ACCEPT FRINGE, CORD OR TAPE FOR C.O.M.
WE RESERVE THE RIGHT TO REFUSE FABRICS THAT WE FEEL ARE UNSUITABLE FOR UPHOLSTERY.
C.O.M. IS NOT COVERED BY OUR WARRANTY.
Step 4: Pricing
C.O.M. on Furniture and Furniture with Standard Pillows Use Grade 13 Pricing
C.O.M. on Extra Pillows Use Grade 13 Pricing
C.O.M. on S|B Dining Use Grade 15-19 Bucket Pricing

Clean codes

The codes below are used in the following fabric listing to describe the cleaning methods specific to a particular type of fabric, based on the material content of the fibers.

S Clean with pure Petroleum Distillate-Based Solvents only. Water-based or detergent-based solvent cleaners may

cause excessive shrinkage. Water stains may become permanent.

SW Clean with either water-based cleaning agents, foam, or pure Petroleum Distillate-Based solvents.

W Clean with water-based cleaning agents or foam to remove overall soil. (Note: Many household cleaners are harmful to the color and life of a fabric.)

Please note: Smith Brothers does not endorse any specific brand of spot cleaner. However, we do recommend testing any cleaner on a hidden area of the furniture

before cleaning the actual spot. If improperly used, some cleaners may leave a residue or 'water' mark.

Choose from a variety of pieces to create an infinite number of combinations. Each piece is a single seat and our innovative bracket system keeps the units together and prevents shifting or separating and allows you to position them in any configuration: from a simple reclining sofa to a custom-sized sectional. Diagrams are not drawn to scale and dimensions are estimated. Shaded area represents the arm. Note that armless sides have exposed connector brackets, so all configurations must have an arm at both the left and right ends. These dimensions are the same for all pieces in this group unless otherwise noted.

Choose from a variety of pieces to create an infinite number of combinations. Each piece is a single seat and our innovative bracket system keeps the units together and prevents shifting or separating and allows you to position them in any configuration: from a simple reclining sofa to a custom-sized sectional. Diagrams are not drawn to scale and dimensions are estimated. Shaded area represents the arm. Note that armless sides have exposed connector brackets, so all configurations must have an arm at both the left and right ends. These dimensions are the same for all pieces in this group unless otherwise noted.
