AJ's Furniture Retail Price List

Finished

Finished

COM (Customers Own Material)

(No deduction for COM fabrics) For Plain Fabrics, use the Standard Fabric price. If it's a repeating pattern use the Premium Fabric price and send 1 extra yard Fabric. When sending in Fabrics or Leathers make sure they are clearly labeled with PO# & Customer name. See the fabric yardage & leather square footage requirement chart in the pricelist.

The buyer is responsible for supplying AJ's with any fabric or leather selected outside of Heartland Fabrics

Hardwood frames and Springs-lifetime protection against manufacturing defects of frames and springs

*Price per pillow

PRICE

Seat Foam Cores - (High Resilient 2.6 Density) polyurethane foam has a lifetime protection against

213 SP

13x13 Small Pillow

Standard

manufacturing defects for the lifetime of the product. The seat foam core refers only to the foam of the

213 SP

13x13 Small Pillow

Premium

cushion, not the fiber wrap or the fabric or leather casing.

213 SP

13x13 Small Pillow

Leather

NOTE: Even though we use a high performing polyurethane foam, some flattening or loss of resiliency

218 LP

18x18 Large Pillow

Standard

will occur as a result of normal use and aging and is not covered under the warranty

218 LP

18x18 Large Pillow

Premium

Cushion materials conform to the shape of the user and is not considered to be a manufacturing defect.

218 LP

18x18 Large Pillow

Leather

Cushion softness is significantly affected by the type of fabric or leather that surrounds it. Proper
221 LBP
12" x 21" Lumbar Pillow
Standard
maintenance and seat cushion rotation where applicable will provide longer life and greater durability.
221 LBP
12" x 21" Lumbar Pillow
Leather
Blown Fiber Backs Note: Back cushions with blown fiber filling are exceptionally soft, but these fibers
will show a loss of resilience as a result of normal use and AJ's cannot warrant blown-fiber back
cushions against softening and flattening of fibers, which are considered normal wear, and not defects.
Arm Pads
The cushions should be fluffed occasionally to keep these fibers evenly distributed.

See our Warranty page towards the back end of our catalog for a more detailed warranty description

Hardwood frames and Springs-lifetime protection against manufacturing defects of frames and springs

Seat Foam Cores - (High Resilient 2.6 Density) polyurethane foam has a lifetime protection against manufacturing defects for the lifetime of the product.

The seat foam core refers only to the foam of the cushion, not the fiber wrap or the fabric or leather casing.

NOTE: Even though we use a high performing polyurethane foam, some flattening or loss of resiliency will occur as a result of normal use and aging and is not covered under the warranty

Cushion materials conform to the shape of the user and is not considered to be a manufacturing defect. Cushion softness is significantly affected by the type of fabric or leather

that surrounds it. Proper maintenance and seat cushion rotation where applicable will provide longer life and greater durability.

Blown Fiber Backs Note: Back cushions with blown fiber filling are exceptionally soft,but these fibers will show a loss of resilience as a result of normal use and we cannot warrant blown-fiber

back cushions against softening and flattening of fibers, which are considered normal wear, and not defects. The cushions should be fluffed occasionally to keep these fibers evenly distributed.

Recliner Mechansims: (350LB Load Rating) There is a limited three year warranty

Fabric: One year protection for normal use (Excludes and does not warrant against pilling, shading, fading, shrinkage, wrinkling, stretching or abuse)

Leather: One year protection for normal use (Excludes and does not warrant against stretching, wrinkles, insect bites,healed scars

and other natural markings,as well as some color and surface variations or abuse.
